Tharun Sridhar

has successfully completed the online Specialization

AWS Certified Solutions Architect Associate (SAA-C03)

Congratulations on successfully completing AWS Certified Solutions Architect Associate (SAA-C03)! This specialization has equipped you with the knowledge to confidently tackle AWS infrastructure design and management. You've mastered the core AWS services, including EC2, S3, IAM, and VPC, and you are now prepared to deploy scalable, secure, and cost-efficient cloud solutions. With your hands-on experience, you'll be ready to design and implement real-world cloud architectures and excel in the AWS Certified Solutions Architect - Associate exam.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
